ROUND 2 QUESTIONS FRINGE GUIDE MAP
(1pt each)

There are over 500 venues at the festival. If you are lost, and don't have fortune to be looking for a bus painted with Bob Slayer's face, a map makes it easier to find them.

We are in section E5 of the map in the back of the Fringe Guide, where numbers run across the horizontal axis, and letters across the vertical axis. The venue that's furthest North but still on the map is The Royal Botanic Gardens, in section A2; in the South it's The Mockingbird pub, in H6.

Can you give the grid reference for the following venues?

- 1) Assembly Hall
- 2) Canon's Gait
- 3) Dragonfly
- 4) Gilded Balloon Teviot
- 5) Pleasance Courtyard
- 6) The Stand

ROUND 5 QUESTIONS: VENUE CAPACITIES
(1 pt each)

Some venues are bigger than others, just as some girls' mothers are bigger than other girls. Muthas.

By way of example, the capacity of this bus is 45; the Gilded Balloon's Sportsman's venue is twice as big, with a capacity of 90. The next ten questions are about how many times bigger one room is compared to another; all the answers are whole numbers. (Some, like the Fugees, will have you saying "two times, two times". Some are much bigger, hoovering up 20x the audience a smaller gig might get, yet still counting themselves as a 'fringe' event.)

1) How many times more seats than the Gilded Balloon Turret has Stand One? ie How many Bec Hill audiences could fit into Simon Munnery's room? AND ALL GET A CHAIR
